Example: 4 people enrolled in judobase (without referee) = 4 x 3 nights = 12 nights or more must be booked
17 people enrolled in judobase (including 1 referee) = (17-1) x 3 = 48 nights or more must be booked

PAYMENT

Payments are in cash in US dollar bills. We accept bank transfers and payment upon arrival as long as you have room reservations. To optimize your accommodation and stay, it is important that you send us the number of athletes and members of the delegation before **august 15th**

According to the IJF rule promulgated on December 2, 2012 in Tokyo, "the organizing country should not request a penalty fee for participating countries that cannot make bank transfers but can pay in cash upon arrival." The delegation must have proof of bank transfer upon arrival.

Countries must inform the organizers of the number of participants before the deadline. Possible extra room reservations at check-in will also be surcharged with 10%. The "no-show" rooms will result in 100% of the charge of hotel expenses. Room cancellations cannot be made at check-in.

If the rooms are cancelled, the Organizing Committee has the right to charge as follows:

Kata 2022 Evaluation Rules

IJF will be used to judge the Kata with reference also in the official Kodokan videos and books.

SYSTEM OF POINTS

There are five judges and they will record the points on the official IJF/PJC score sheet. For each technique the total points of the three judges will be added to produce the final score: the maximum score and the minimum score for each technique will be cancelled.

Definition of errors:

- forgotten technique

The omitted technique will be scored as zero and also the final score of the pair will be cut in half. If more than one technique is missed the score for the technique will also be zero, but the total score will not be halved again. Finally, if the halved score does not know a whole number, the number will be rounded up.

- Big mistake

When the execution of the principle is incorrect (5 points are deducted and the maximum number of crosses is 1);

- Half error

When one or more elements of the principle is not applied correctly (3 points are deducted and the maximum number of crosses is 1);

- Little mistake

Imperfection in the application of the technique (1 point is deducted and the maximum number of crosses is 2)

The score for each technique can be increased or decreased by 0.5 point, adding in the column "correction value" to " + " or " - ".

For each technique without a big error, the minimum to qualify must be 4.5.

In the Nage no Kata, the left and right techniques will be evaluated comprehensively (just one point).

The couple enters and leaves the competition on the opposite side of the shomen: the start and end of the kata (opening and closing) is 8 m or 10 m apart, depending on the dimensions of the tatami. Any behavior

by Tori or Uke inside the competition area that is against the spirit of the kata will reduce the ceremony score.

In case of equal scoring between pairs, the following criteria will be applied, considering the score sheets of the five judges.

- Total value of big errors - whoever has the fewest errors wins;
- If still equal, the total value of the half errors - whoever has the fewest errors wins;
- If still Equal, the value of small errors will be considered - the pair with fewer errors wins;
- If still equal, the average score (evaluated to the second decimal place) of the entire presentation will decide.

The couple with the best score wins.

If two couples placed in first, second or third are still tied after using the above criteria, the kata will be repeated for the medal to be assigned.

JUDGMENT SYSTEM

Five judges under the supervision of the PJC Kata commission will evaluate each Kata. The five judges will be located on the Shomen side and will be seated approximately 1m apart from each other.

The rule of neutrality will be applied: a couple may not be judged by a judge from the same nation.

The position of the five judges will be the same for the entire competition. If one of the judges is temporarily replaced, he will be placed in his original position when he returns to the competition.

A judge cannot be a competitor.

The judges must always be in their positions before the arrival of the couple in the competition area.

The couple enters and leaves the competition area on the opposite side of the judges:

The central judge does raise and with arms outstretched and palms facing up, invites the couple to enter the competition area.

COMPETITION AREA

The competition area has the minimum dimensions of 8 x 8 and maximum of 10 x 10 meters and must be covered by tatami or similar acceptable material. The competition area will be set on a resistant floor. When more areas are contiguous in the competition area, a common security area of no minimum 2 meters is necessary.

A visible colored adhesive strip approximately 5 cm long and 50 cm long must be fixed in the center of the competition area, 6 m apart to indicate the position of Tori and Uke. The center of the competition area will be indicated by an adhesive strip of the same colour.

INJURY, ILLNESS OR ACCIDENT

When the Tori or Uke cannot continue due to injury, illness or accident during the execution of the Kata, the pair will be considered out of competition.

In case of a small injury, such as a bloody wound, a split nail or a problem with contact lenses, the execution of the kata will be interrupted and a doctor will treat the competitor outside the competition area. The competition will continue and the pair will repeat the entire kata immediately after the last performance. In the case of a new minor injury happening with the same competitor during the second performance of the kata, the pairing will be considered out of competition. In case a small injury happens after a forgotten technique, the couple will be considered out of the competition.
